SUMMARY FINANCIAL REPORT 2013

Chairman's Statement

The Group's office buildings registered a rental income of \$172.2 million in 2013, an improvement over \$167.2 million in the previous year. The average occupancy stood at 96%.

2013 Review

The Singapore economy grew by 4.1% in 2013, the upper end of the Government's revised forecast of between 2% and 4%. Stronger growth in the US, China, Japan and Europe contributed to the improved performance of the Singapore economy.

In line with improved economic sentiments in the second half of 2013, the office market ended the year with improved rents and occupancy rates although it started the year with flattish growth.

Despite rounds of cooling measures, the residential market has been resilient until the implementation of the Total Debt Servicing Ratio framework in June 2013 to restrict individual borrowings. Following the restrictions imposed on financing, market sentiments turned cautious with a substantial decline in sales volume.

Performance Review and Dividend

Group revenue was \$609.6 million for the financial year 2013, marking a decrease of 14% due mainly to lower sales of trading properties. Sales of trading properties declined by 56% to \$120.7 million with lower sales recognition from "The Excellency" in Chengdu and "The Trizon" residential projects. Both projects were completed in 2012.

The decline, however, was partially offset by higher revenue from hotel operations, with the re-opening of Pan Pacific Singapore Hotel which was closed for renovation from April to August 2012. The Group's revenue from hotel operations increased by 53% to \$131.8 million for the year.

Gross rental income from investment properties remained flat at \$271.5 million despite improvement in the office rental market as rental income from Marina Square was affected by major asset enhancement initiatives.

Progressive recognition of development profits from the joint venture residential property, "Archipelago", on a percentage of completion basis contributed to the share of joint venture profits of \$19.5 million (2012: Nil) for the year.

The Group's net profit from operations decreased by 1% to \$167.2 million.

The annual year end valuation of investment properties by professional valuers showed a fair value gain of \$148.9 million (2012: \$223.3 million) reflecting a 4% increase in capital values. As a result, overall net profit for the year amounted to \$316.1 million (2012: \$391.6 million).

As at 31 December 2013, the net asset value of the Group was \$3.61 (2012: \$3.40) per share.

The Board recommends a first and final tax-exempt (one-tier) dividend of 3.0 cents (2012: 3.0 cents). The payout will amount to \$41.4 million (2012: \$41.4 million) for the financial year ended 31 December 2013. The Board also recommends a Scrip Dividend Scheme to give shareholders the option to receive dividends in the form of new ordinary shares in lieu of cash. Subject to the necessary approvals being obtained, the Scheme will be applied to the final dividend for 2013.

Singapore Office and Retail Properties, Hotels

The Group's office buildings registered a rental income of \$172.2 million in 2013, an improvement over \$167.2 million in the previous year. The average occupancy stood at 96%.

At the former UIC Building site, construction work commenced in the fourth quarter of 2013 for a new iconic development comprising a 23-storey Grade A office tower and a 54-storey residential tower called 'V on Shenton'. The development is designed by world renowned UN Studio in collaboration with local architectural firm, Architects 61. The construction is expected to be completed by July 2017. The 510 apartments in the residential tower, launched for sale in the previous year, was 65% sold as at the end of the year.

In June 2013, Marina Square completed the first phase of its asset enhancement initiatives with the revamp of the west arm of the mall on Level 2 into a food haven named as "The Dining Edition". This new dining area, with net lettable area of 35,000 square feet, features 16 mid-to-upscale restaurants serving international cuisine. The second phase of the mall's enhancement includes the development of a new retail wing facing Marina Bay and Esplanade Theatre. The new wing comprises three levels of retail and dining, with net lettable area totalling 150,000 square feet and is expected to be completed in the fourth quarter of 2014.

The uncertain global economy and the increase in the supply of hotel rooms had moderated the performance of the three hotels: Pan Pacific Singapore, Marina Mandarin Singapore and Mandarin Oriental, Singapore. The re-opening of Pan Pacific Singapore, after undergoing a multi-million-dollar transformation in 2012, contributed to the increase in revenue from the Group's hotel operations.

West Mall, a shopping mall located near the Bukit Batok MRT, continued to enjoy strong shopper traffic, receiving about 11 million visitors during the year. The mall enjoyed almost full occupancy and total rental revenue increased by 2% to \$31.8 million during the year.

Singapore Residential Projects

Two new residential projects, "Mon Jervois" and "Alex Residences", were launched during the year. "Mon Jervois", a five-storey boutique development with 109 units at Jervois Road in an exclusive district, was launched in April 2013. To date, 30% of the units had been sold. The 40-storey "Alex Residences", which has 429 units and is near the Redhill MRT Station, was launched in November 2013. To date, 40% of the units had been sold.

Another new project, jointly developed with UOL Group, is “Thomson Three”. Located at Bright Hill Drive off Upper Thomson Road, the development comprises three 21-storey blocks with 445 apartments and 10 strata semi-detached houses. “Thomson Three” was launched for sale in September 2013 and 80% of the units had been sold to date.

“Pollen & Bleu”, an eight-storey development located at Farrer Drive, will be launched in the second quarter of 2014. It comprises 106 residential units and is within walking distance to the Farrer Road MRT Station.

Overseas Investments

“The Excellency”, the Group’s wholly-owned project in Chengdu, was completed in June 2012. Comprising two 51-storey residential blocks and 3,300 square metres of retail/commercial space, the development is located close to the Chun Xi shopping belt. As at end December 2013, 74% of the development had been sold.

In Tianjin, the Westin Tianjin Hotel, in which the Group holds a 51% stake, has built a good reputation among business travellers and won numerous accolades. During the year, it achieved average occupancy of 68%.

In Shanghai, piling works for the Shanghai Chang Feng mixed-use residential and retail project was completed in November 2013. The development (on a 70-year-tenure site covering 39,540 square metres) is a 30:40:30 joint effort of Singland, UOL Group and Kheng Leong Company. The development is expected to be launched for sale in the first half of 2015.

Voluntary Unconditional Cash Offer For Singapore Land Shares

On 24 February 2014, UIC Enterprise Pte Ltd, a wholly-owned subsidiary, announced a voluntary unconditional cash offer for all the issued and paid-up ordinary shares in the capital of Singapore Land Limited (“SLL”) that the Group does not own or control, at an offer price of S\$9.40 for each

share. At the date of the announcement of the offer, the Group owns or controls 80.36 per cent of the total number of SLL issued shares. The offer will close on 7 April 2014, or such later date(s) as may be announced.

The offer is made with a view to delisting SLL from the SGX-ST and exercising any rights of compulsory acquisition that may arise. The Group believes that privatising SLL will give the Group and the management of SLL more flexibility to manage the business of the Group and optimise the use of its management and capital resources.

Outlook for 2014

Singapore’s economy is forecast to grow between 3% and 4% in 2014. With the uncertain economic outlook, office leasing is not expected to improve significantly in short to medium term.

Market sentiments towards residential property will continue to be cautious in 2014 in view of the various cooling measures put in place.

The retail sector is likely to remain resilient with economic growth and interest from international brands. The hotel sector is expected to be challenging due to the large supply of hotel rooms, rising operating costs and tight labour market.

Nevertheless, the Group will leverage its market competencies and continue to stay vigilant to capture opportunities for growth.

Acknowledgement

On behalf of the Board, I would like to express my appreciation to our shareholders, business partners, customers, tenants, management and staff for their support. In closing, I would also like to thank my fellow directors for their guidance and wise counsel.

Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
